About Modulus Consulting

Modulus Consulting is a nationwide Building Information Modeling (BIM) service provider. We support architects, engineers, contractors, and owners with top quality, efficient implementation of BIM. Modulus works with some of the most respected firms in the AEC industry on projects ranging from hospitals and high-rises to tech campuses and entertainment centers. More information can be found on our website www.modulusconsulting.com

About the position

Responsibilities

- Lead BIM Coordination using Navisworks Manage and other platforms.
- Revit Architectural, Structural, Mechanical, Electrical, and Plumbing modeling.
- Laser scanning and as-built modeling from point clouds.
- Lead a team of modelers.
- Working in teams with other Modulus staff
- Attend AEC industry user groups and conferences
- Meeting project deadlines in a fast-paced environment.
- Quality Checking of your work and other's work
- Reporting to Modulus Project Managers.

Minimum Requirements

- At least 4 years experience implementing, and 2 years leading, BIM coordination. Navisworks experience and Data Center experience preferred.
- 4 years experience with Revit modeling.
- Bachelor's degree in Architecture, Engineering, or Construction; or at least 5 years of relevant experience.
- Ability to learn new software tools and workflows.
- Demonstrate drive and aptitude to improve BIM skills.
- Strong written and verbal communication.
- Valid driver's license and ability to travel to local project sites and client offices.
- Self-motivated, able to follow direction, able to work well on a team, and all the other typical good qualities you see on job postings.

Qualified applicants may submit their resume with references and a cover letter to HR@modulusconsulting.com
